

# DES311 | Brief 3: Portfolio Website

## Project Deliverables:

- 3.1 Create a content audit, site map & define your choice of navigation.
- 3.2 Design and annotate your page layouts, wireframes & comprehensive layouts for at least 3 pages of your website.
- 3.3 Build, test, promote & launch your portfolio site.

## Project Specification:

You are required to plan and develop a new portfolio website that will replace your current site and will house your work from this module (homework's, research diary, creative experimentation) and your chosen content (about, CV, contact etc)

**Homework 3.1 & 3.2** must be presented as **single HTML pages** and include both sketches and the final recommendations for each of the deliverables. You should use **CSS** to style and position elements on the page.

**Homework 3.3** Your website must be built primarily using **HTML & CSS** but may include other technologies such as JavaScript etc and replace what you currently have on your website. You must produce proof of testing across various popular browsers and validate your code as best you can and justify why a page may not have validated if necessary. You should also discuss methods of promoting your website.

All homework's must be linked from your homepage and your final website must replace what is there currently.

## Assignment hand in date:

**15.12.11** on-line submission by **10am**.

## On-going feedback to student:

Feedback will be available on a weekly basis in the lab sessions regarding on-going progress, and following submission of the assignment a crit session will take place on **16.12.11** when specific feedback will be given highlighting exemplary work and denoting potential areas of improvement to enable students to revise project work prior to final submission.
